### Linking Childhood Lead Poisoning and Developmental Disabilities in Florida

#### **State EPHT Team**

Greg Kearney, RS, MPH

Epidemiologist, Project Manager

Chris DuClos, MS

GIS Manager

David R. Johnson, MD, MS, DABT, FACOEM Principal Investigator

### University of Miami Developmental Epidemiology Team

Keith G. Scott, Ph.D.

Marygrace Yale Kaiser, Ph.D.

Carrie Lazarus, M.S.

Tony Gonzalez, B.A.

#### Trading Partner Acknowledgement

The studies are conducted under an agreement with the Florida Department of Education.

#### Aims of the DET

- 1. Assist in planning for the provision of services.
- 2. Help identify groups that would benefit from the provision of early intervention.
- 3. Help identify conditions that lead to the need for special education services.

### The Florida Childhood Lead Poisoning Prevention Program (CLPPP) STATEWIDE BLOOD LEAD SURVEILLANCE

- CLPPP began conducting statewide blood lead surveillance in 1993.
- Data is housed at the Florida Department of Health.
- > Blood lead level results are entered, checked for quality, and merged to the main database.

#### Exposure Data Set

- Patient Information
   (Name, Date of Birth,
   Ethnicity, Race,
   Gender, Address,
   Medicaid #, Age at
   Test)
- ProviderInformation (Name, Address)

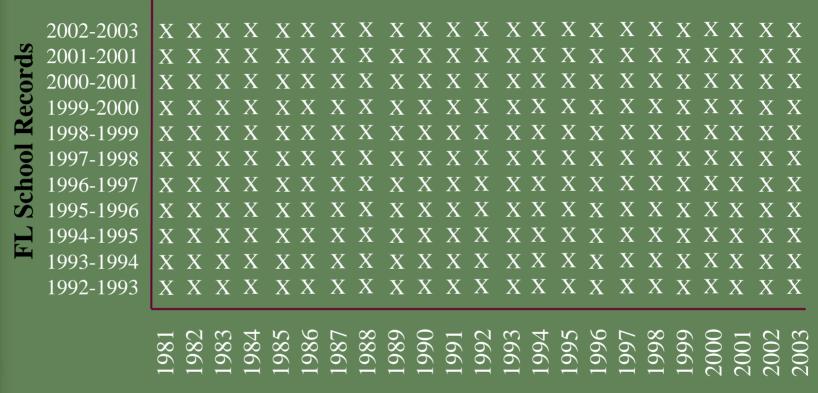

- Lab Information(Name, Address)
- Test Information
   (Report Type, Test Type,
   Date of Blood Draw,
   Date Sample Received,
   Date Sample Reported,
   Result Blood Lead
   Level)

#### Outcome Data Set

Demographics (school number, district number, race/ethnicity, sex, dob, grade, native language, free lunch eligibility)

Exceptionality(DisabilityClassification)(primary exceptionality: Mental Retardation, Behavior Problems, Autism)

#### Linked Data Set

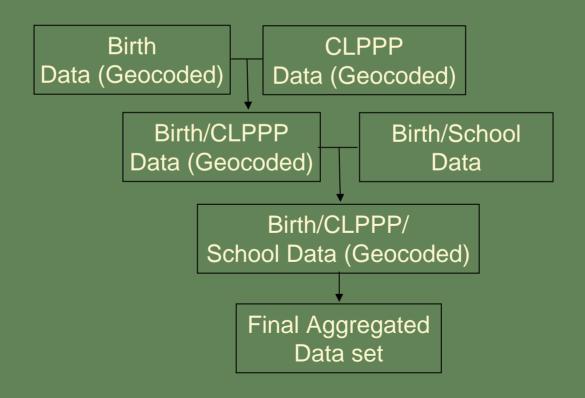

**FL Birth Records** 

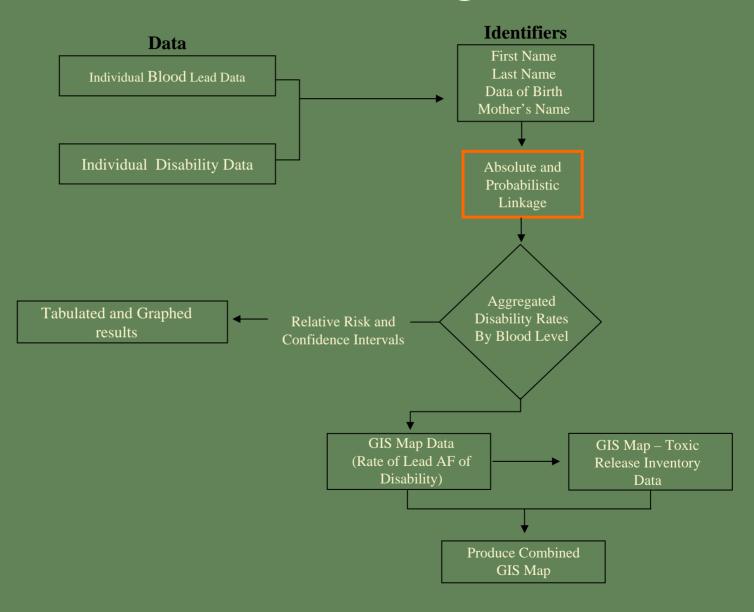

FL Birth Records: 139,000-196,000 records/yr

FL Public School Data: 2.3-2.8 million records/yr

# New Linkage with Exposure Data Birth/School/CLPPP

#### Data Linkage

#### **Expected Products**

Linked Disability/Exposure Data Set Controlled for Major Confounders

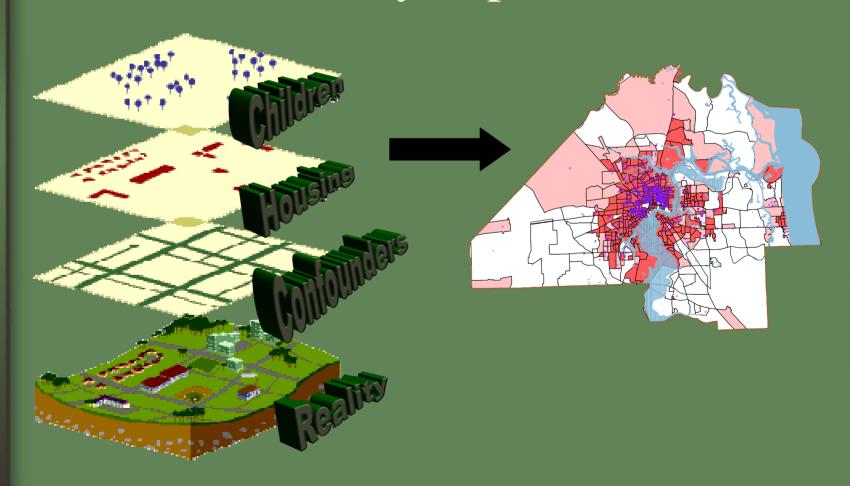

e.g. Parental Education
Birthweight Education
Gestational Age

### Expected Products Controlled Study of Lead Exposure

Dose/Response Relationship
Blood lead level and disability rates

# Develop map of validated high-risk areas based on disability/exposure

### Universal Screening Areas for Childhood Lead Poisoning

http://www.doh.state.fl.us/environment/community/lead/CountyMap.html

 Screening areas based on older housing

All Florida county maps on the internet

e.g. Miami-Dade County
